About This Game

The unwanted are kicked into
the black sea...
... where they would
melt and harden into
a pure metal.

The metal was then harvested
and put to good use by the
common man.

MOTHLIGHT

From the most handsome developer ever...
Samu presents you with a new RPG experience that will
Blow. Your. Mind.

Introducing Mothlight. A game about exploration, weird stuff,
and exploring a world made entirely out of people. Literally.

WORLD

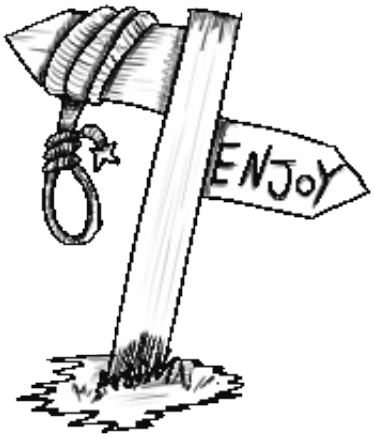
This world is different.
As people were kicked into the black sea,
their bodies melted and then hardened
into a pure metal called "Dreg Ore".

Soon the ore started to clump together
and form islands. This happened more
and more until continents were made.

People who were kicked in fell on land instead
of in the water. And then boom. Civilization.

GAMEPLAY

Your main goal is to explore and thrive!
Gear up, get cooler armor and be more stylish.
Fight more bizarre bosses and find more exciting items!
The world is yours to conquer!



STORY

Neethan threatens Augus in a time most harsh.
Demons from the darkest depths of the sea are making everyone go mad.
The Apostles of the Deep Ones are manipulating powerful entities...
And Enzo is stuck in the middle of it.
Escape this hell and return to the world above...
...or be devoured by the eldritch abominations below.
